PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with hands-on internship experience building secure, scalable web applications using PHP, Laravel, MySQL, JavaScript, HTML5, CSS3, and Bootstrap. Proven ability to design RESTful APIs, implement role-based authentication, optimize MySQL database schemas, and deliver end-to-end MVC-based solutions.

TECHNICAL SKILLS

Languages: PHP, JavaScript, C

Frontend: HTML5, CSS3, Bootstrap, AJAX, jQuery

Backend / Frameworks: Laravel, MVC Architecture, RESTful API Development

Database: MySQL, SQL, Database Design & Query Optimization

Tools & Concepts: Git, GitHub, Composer, RBAC, Third-Party API Integration, Agile Development

WORK EXPERIENCE

Software Engineer (PHP/Laravel) | Hunt Digital Media

Feb 2026 – Present

- Engineered and maintained a full-featured loan management web application using PHP and Laravel, improving operational workflows.
- Implemented secure JWT-based authentication, RESTful API endpoints, and role-based access control (RBAC) to enforce data security.
- Designed and optimized MySQL database schemas for user profiles, loan applications, and transactions, reducing query response time.
- Integrated third-party payment processing APIs; refactored codebase to strengthen MVC separation and application scalability.

Web Developer (PHP/Laravel) | Shofx

Jul 2025 – Nov 2025

- Contributed to production-grade web application development using PHP, Laravel, and MySQL in an Agile team environment.
- Supported responsive front-end implementation with HTML5, CSS3, Bootstrap, and AJAX; participated in code reviews and Git workflows.

PROJECTS

Emergency Healthcare Locator (MediFind)

Jun 2025

PHP, Laravel, JavaScript, Bootstrap, AJAX, MySQL

- Built a full-stack web app enabling users to locate hospitals, clinics, and ambulance services via dynamic search and geolocation filters.
- Implemented specialization-based filtering, an emergency contact directory, and secure authentication; designed a normalized MySQL schema.

E-Commerce Platform (ShoppingHub)

Apr 2025

PHP, JavaScript, Bootstrap, AJAX, MySQL

- Integrated session-based authentication and an admin panel for product and order management using PHP and MySQL.
- Developed a multi-category e-commerce platform with responsive UI, secure checkout, server-side validation, and product/cart management.

EDUCATION

Bachelor of Computer Applications (BCA)

Dec 2024

IGNOU | A.B.N Seal College — GPA: 63%

CERTIFICATIONS

PHP Web Development Certification

Jan 2025

PHP development, MySQL integration, and web application security best practices.
